## THE EPIC MODULE

**1. Briefly describe the proposed EPIC module, including:**

- How it relates to primary care
- What best practice and/or cutting edge research underlies the module
- What practice change is expected (immediately and long-term)

**2. How will the proposed module address all staff roles in the practice, including:**

- What are the expectations for practice change on behalf of clinical providers?
- What are the expectations for practice change on behalf of office staff?

**3. What has been done in Connecticut to introduce the proposed practice change, including:**

- Any educational programs (e.g. presentations, grand rounds)
- Any demonstration or pilot projects (include evaluation results if available)

**4. What resources are available to support development and dissemination of the proposed module, including:**

- Resources for developing the module content
- Pool of potential trainers to disseminate the module

# EPIC Module Presentation
