**This report was prepared by the Mobile Crisis Intervention Services Performance Improvement Center (PIC):**  
 Kayla Theriault, MPH, Data Analyst; Aleece Kelly, MPP, Senior Data Analyst; Yecenia Casiano, MS, Project Coordinator; Kellie Randall, Ph.D., Director; Carrie Shaw, Administrative Assistant; Heather Clinger, MPH, CPS, Program Manager (Wheeler Clinic); Sarah Camerota, LICSW, 2-1-1 EMPS Program Manager (United Way of CT-2-1-1); Jeffrey Vanderploeg, Ph.D., CEO

The Mobile Crisis Intervention Services Performance Improvement Center is housed at the  
 Child Health and Development Institute of Connecticut, Inc.

## Executive Summary

Additional data and appendices are available online <http://www.chdi.org/publications/> or contact Jeffrey Vanderploeg, PhD, [jvanderploeg@uchc.edu](mailto:jvanderploeg@uchc.edu) for more information.

**Note:** Due to COVID-19, schools were closed and stay-at-home orders were put in place for the non-essential workforce in Connecticut beginning in mid-March of 2020. Mobile Crisis is still operational, and as part of the essential workforce providers are working with families to respond to calls via telephone, video conferencing, and in-person responses with safety of the child, family, and clinicians as the top priority. Note that both video and in-person responses during this period may be reflected within the report as 'mobile' responses. Difficulties related to the effects of COVID-19 in both service provision and data collection should be taken into consideration when reviewing this report.

**Call and Episode Volume:** In July 2020, 2-1-1 and Mobile Crisis received 641 calls including 461 calls (71.9%) handled by Mobile Crisis providers and 180 calls (28.1%) handled by 2-1-1 only (e.g., calls for other information or resources, calls transferred to 9-1-1). There was one crisis response follow-up call among the calls to Mobile Crisis. This month showed a 20.2% decrease in call volume from August 2019 (n=803).

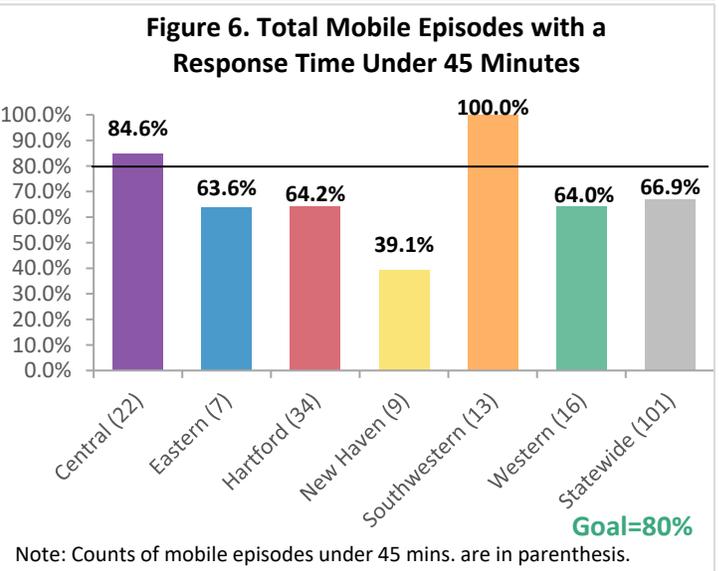

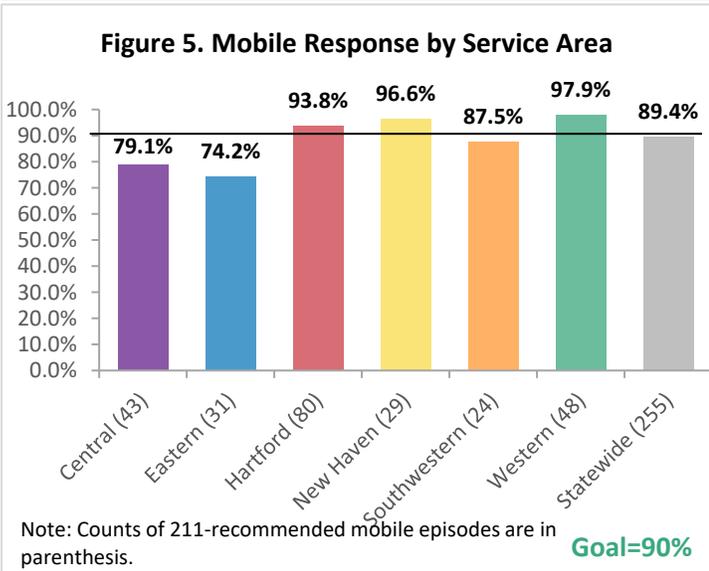

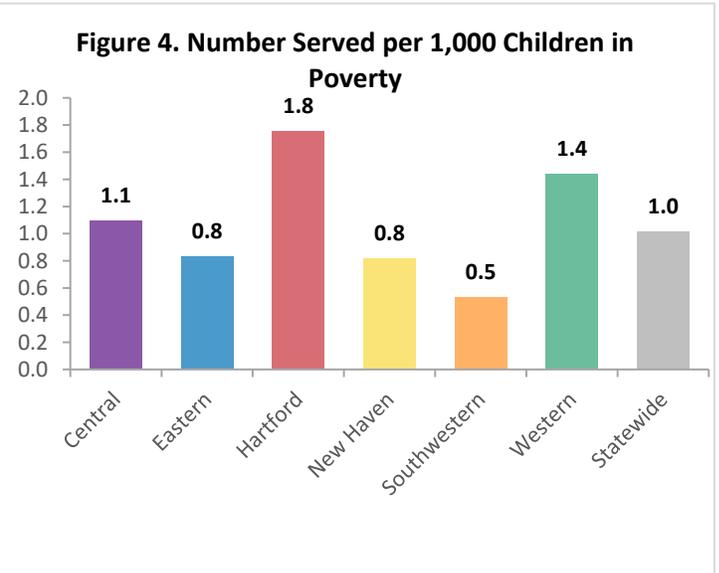

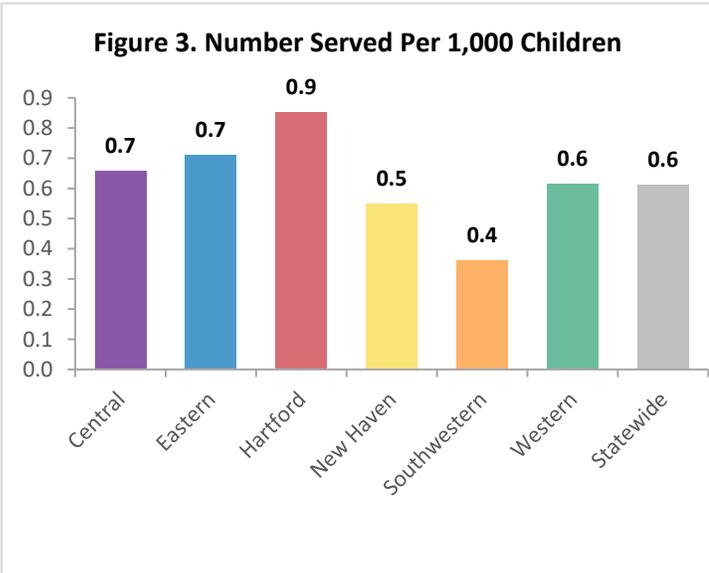

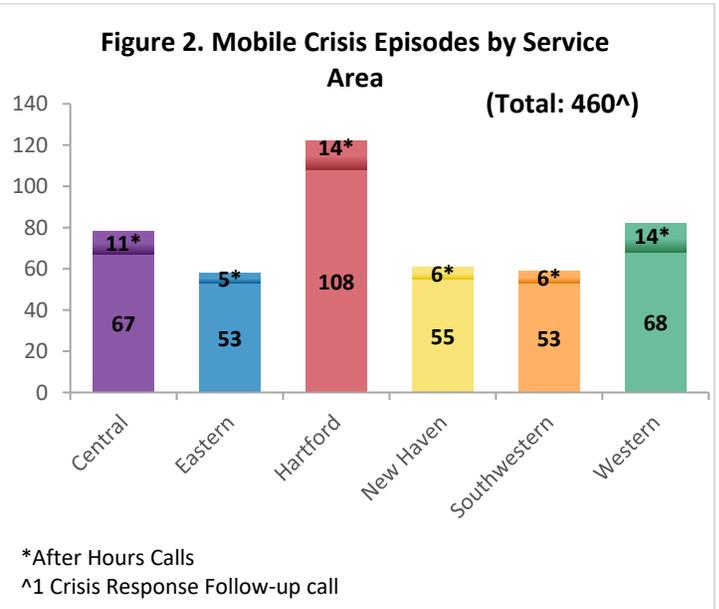

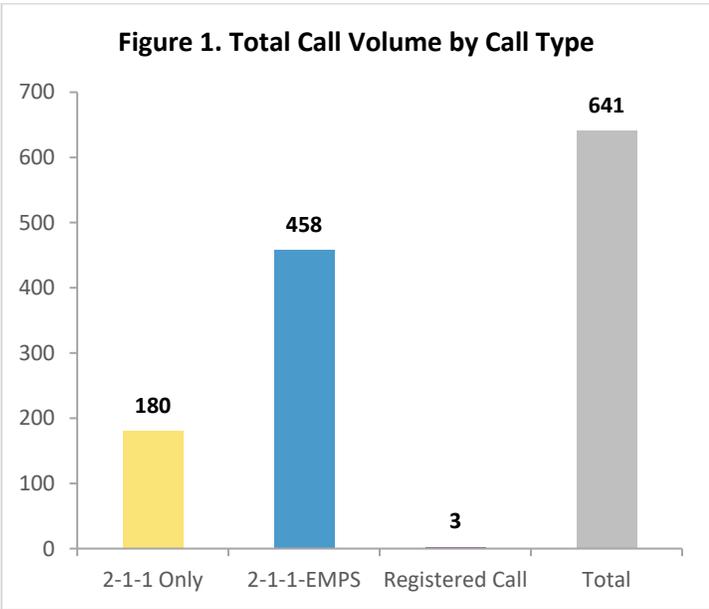

Among the **460 episodes of care** this month, episode volume ranged from 58 episodes (Eastern) to 122 episodes (Hartford). The statewide average service reach per 1,000 children this month was 0.6, with service area rates ranging from 0.4 (Southwestern) to 0.9 (Hartford) relative to their specific child populations. Additionally, the number of episodes generated relative to the number of children in poverty in each service area yielded a statewide average poverty service reach rate of 1.0 per 1,000 children in poverty, with service area rates ranging from 0.5 (Southwestern) to 1.8 (Hartford).

**Mobility: Statewide mobility was 89.4% this month;** slightly higher than the rate in August 2019 (88.7%). Three of the six service areas were at or above the 90% benchmark this month, with performance ranging from 74.2% (Eastern) to 97.9% (Western). Mobility for individual providers ranged from 60.0% (UCFS: NE) to 100.0% (CFGC: Norwalk and CFGC:EMPS (Bridgeport); Wellmore: Danbury and Torrington). Nine of the fourteen individual providers had mobility rates above the 90% benchmark.

**Response Time:** Statewide, this month **66.9% of mobile episodes received a face-to-face response in 45 minutes or less**, which is lower than the rate in August 2019 (87.7%). Two of the six service areas was at or above the benchmark of 80% of mobile responses provided in 45 minutes or less, with performance ranging from 39.1% (New Haven) to 100.0% (Southwestern). Six of the fourteen sites met the 80% benchmark. The statewide median mobile response time was 35.0 minutes.

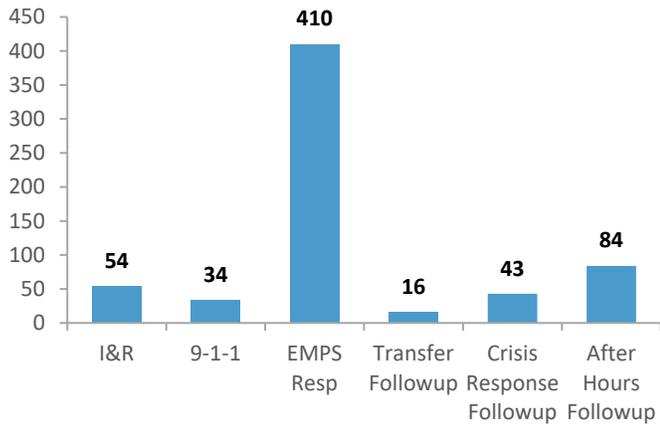

**Length of Stay (LOS):** Statewide, among discharged episodes, **one of the 120 plus stabilization follow-up episodes exceeded 45 days**. The statewide median LOS for episodes discharged this month with a crisis response of *plus stabilization follow-up* was 12.5 days. The regional median LOS ranged from 9.0 days (Hartford) to 31.0 days (New Haven).
